Aa

APPLE

Apples are super floating fruits! They're 25% air, which makes them float in water

ALPACA

Its wool is hypoallergenic (it doesn't cause allergies) and much warmer and lighter than sheep's wool

ANCHOR

Anchors are extremely heavy and are used to secure ships to the seabed and prevent them from being swept away by the current

They can lift up to 50 times their own weight, they don't have lungs (they breathe through tiny holes), and they communicate by leaving scent trails with their antennae

ANT

Airplanes can fly faster than the speed of sound; their wings fold to withstand turbulence, and fuel is stored inside them

AIRPLANE

ASTRONAUT

An astronaut's heart changes shape, becoming more spherical due to weightlessness

ANGER IS WHEN YOU GET REALLY UPSET ABOUT SOMETHING YOU DON'T LIKE OR THINK IS UNFAIR

anger

"WOW" IS WHAT YOU SAY WHEN YOU SEE SOMETHING TRULY AMAZING, BEAUTIFUL, OR UNEXPECTED

WOW
